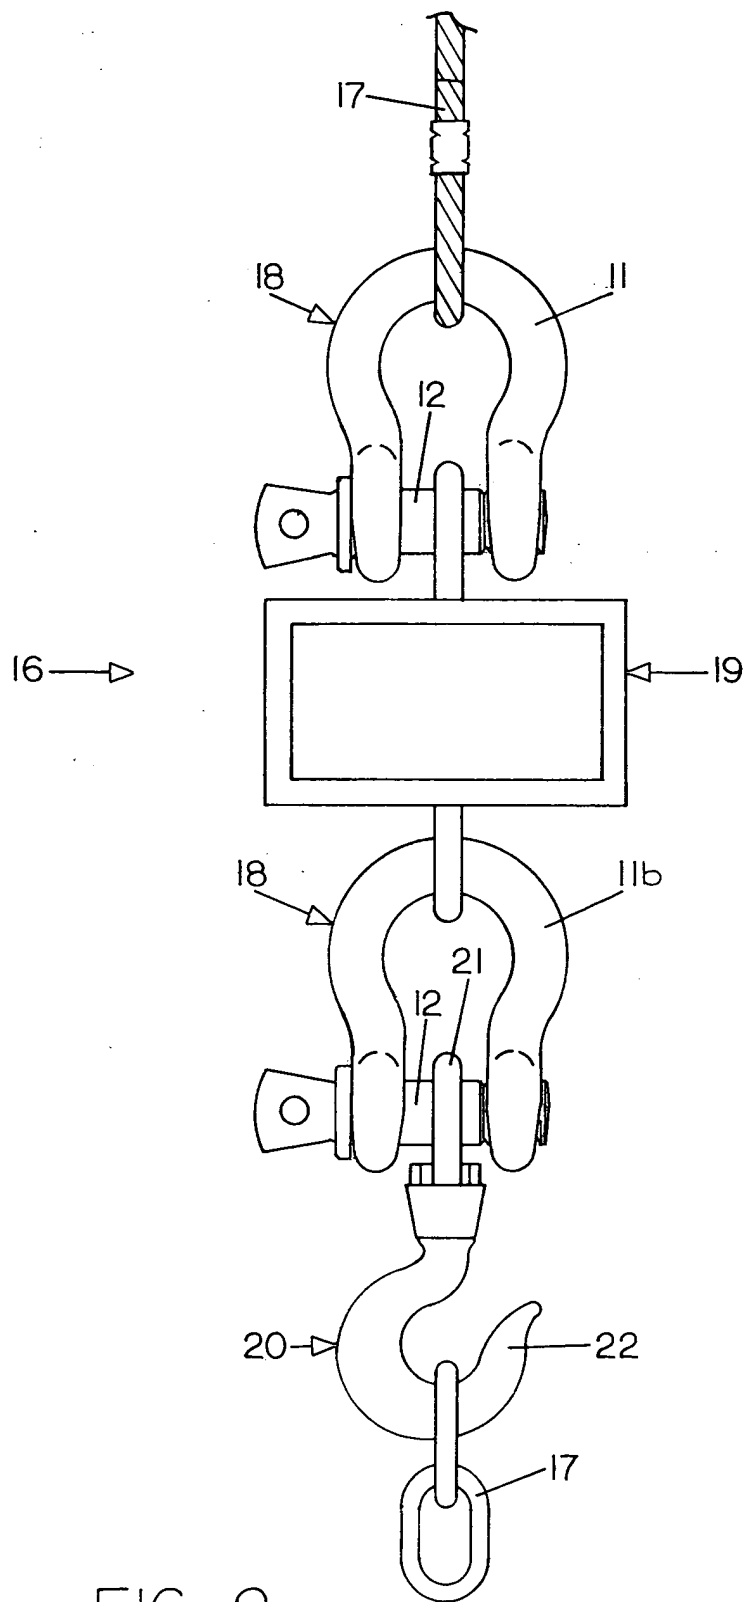

FIG. 2

Technical drawing of a lifting device, showing a side view. The device consists of a handle (10) with a grip (11) and a hook (20). The handle is connected to a hook (20) via a shaft (12) and a coupling (13). The hook (20) is attached to a lifting mechanism (14) which includes a pulley (15) and a rope (16). The device is shown in a state of being lifted, with the handle (10) and hook (20) being pulled upwards. The drawing includes various numbered labels (10, 11, 12, 13, 14, 15, 16, 17, 20, 21, 22) and a directional arrow (23) pointing to the right.
